United States Mint, Philadelphia, Penn.,

MELTING AND REFINING DEPARTMENT,

19th June, 1879.

Sir,

The small Mint, for which I made estimates of apparatus & chemicals for the Melting & Refining Dept, would require for this Dept - one melter and two men, for melting and refining; but the same men might be employed at other times in Coining or other operations.

Respectfully yours

Ja C. Booth

Hon. A. Loudon Snowden, Dir. of M.
